The information presented above is as of 3/4/2019. This chart is for illustrative and educational purposes only and is not an offer of individual or personalized investment advice. Further, the information contained herein is not an offer or solicitation with respect to the purchase or sale of any security. Investing involves risk and is subject to loss of principal. The Models are managed by the AE Wealth Management Investment Committee. The Models are expected to primarily consist of no transaction fee exchange traded funds (ETFs). The Models will generally be comprised of funds that invest in International Large Cap, International Mid Cap, International Small Cap, and various International bond/fixed income securities. The Models will generally consist of between 7 and 11 ETFs, with a typical weighting for each position being between 0%-34% of the total portfolio. Each underlying fund in the Models have a designated minimum investment specified in the prospectus of that fund. Since the Models invest in ETFs, an investor will indirectly bear fees and other expenses charged by the underlying funds in which the Models invest, in addition to direct management and custody fees and other expenses applicable to the Models.
